

All together for the family!

admin, Saturday 10 June 2017 - 15:36:18

This was the name and the motto of the Family Festival which took place in Kyiv on June 3 and 4, 2017. Gift of Life counselors Svitlana Leshchenko and Anna Kuchma with the volunteers of their pro-life centers happily participated in it. At first in the central streets of the capital city there went a pro-life and pro-family march which was a few kilometers long. There also came many families with children and youth from the other cities of Ukraine.

Then the two-days Festival continued in a nice friendly atmosphere on the Dnieper river bank, traditionally at the Postal Square. It was creative, interesting and joyful.

Mostly Gift of Life location was appealing to parents, children and youth. Gift of Life representatives worked fruitfully and with pleasure. Many visitors were curious to know how life looks like before birth.

There were many questions from those who cannot get pregnant. Our counselors gave out different flyers and brochures, Prayers for Mothers in particular, Bible Series books. Everyone was allowed to hold our fetal models and every pregnant woman received from Gift of Life a little gift.

Gift of Life workers received sincere words of gratitude from the Festival visitors, in our turn we are sending many thanks to the All together- for the Family Movement which takes a lot of efforts to make Ukrainian families strong and happy.
